

MAGIC BUTTON

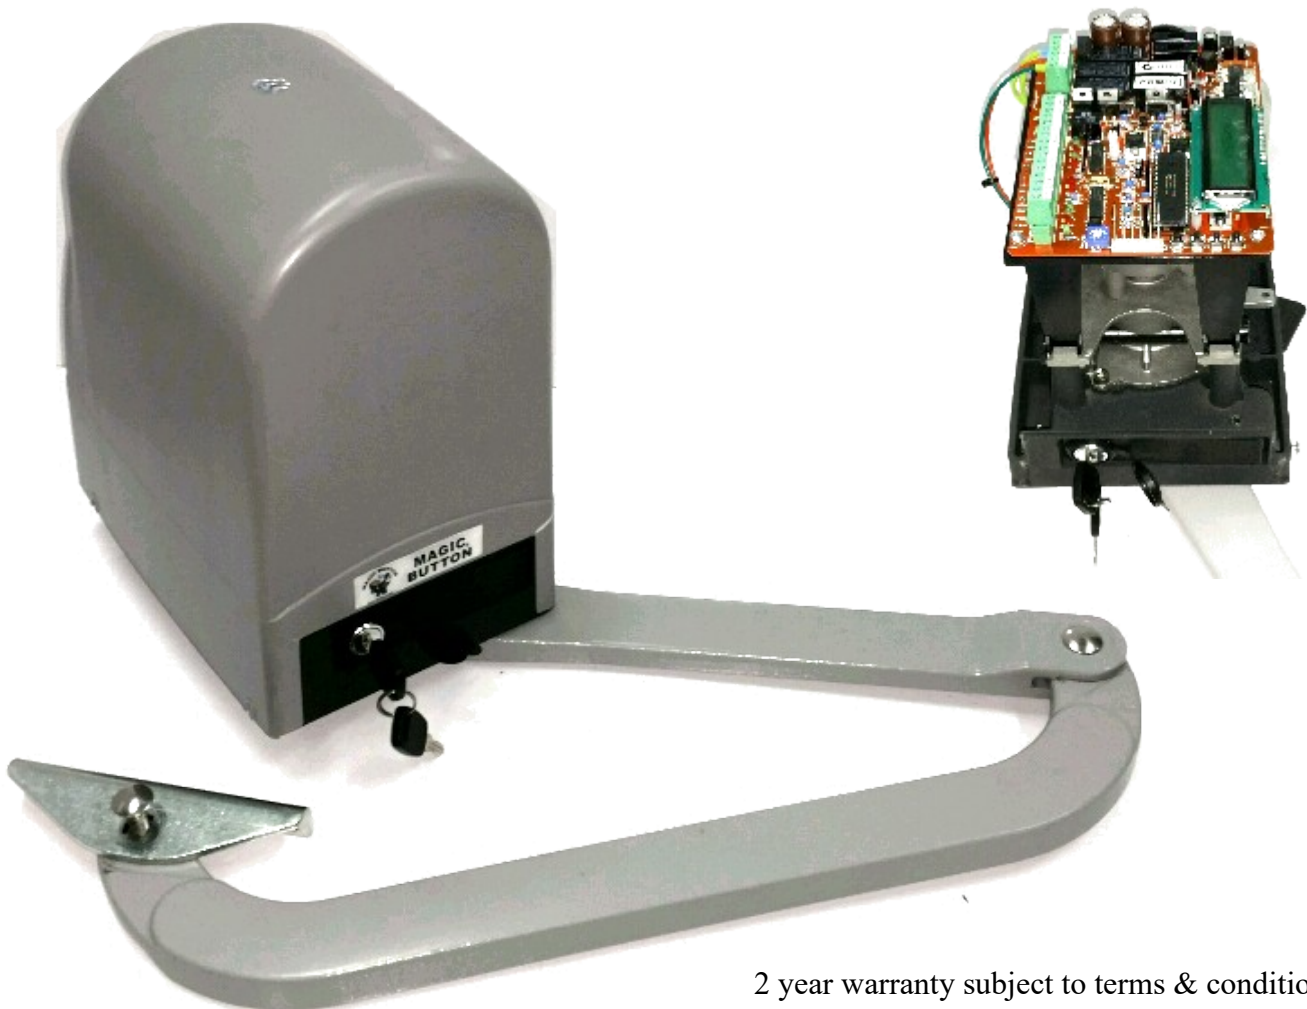

MB ART PRO 24V

The MB ART PRO for domestic swing gates with a maximum length of 2.5m per leaf. The MB ART PRO 24V is designed for lightweight structures with large pillars.

The non reversing gear motor holds the gate in the open & closed positions and has built in mechanical stops.

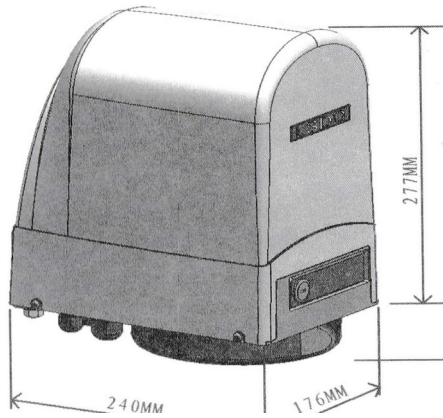

Supplied and fitted under the cover with a Magic Button® control board with built in slow down features, provides for a fast installation and set up time.

A handy feature is their easily accessible manual unlocking mechanism so that the gates can be opened manually during electrical blackouts.

2 year warranty subject to terms & conditions.
