

TRAFFIC LIGHT

This LED type traffic light is suitable for a variety of applications where there is a need for traffic control. It is easy to install and has a rotation off 200° with clicks of 3°. Made from quality materials, this traffic light offers a longer than average life of up to 10 times that of a normal lamp, and has lower energy consumption & maintenance costs.

The red and green LED's are brighter than lamps and consist of 2 cards made up of 25 cells. If one cell becomes damaged, the traffic light will continue to work.

TECHNICAL FEATURES

- ◆ Power supply: 24V AC/DC
- ◆ Average life of LED: 100,000 hours
- ◆ 200° rotation with clicks of 3°
- ◆ IP65 rated
- ◆ Weight: 2.7 Kg
- ◆ LED Aspect: 120mm Diameter
- ◆ Consumption per hour (for each card): 3 Watt
- ◆ Housing: extruded anodised hot-painted aluminium
- ◆ **Single light available**

FLASHING LIGHT

The 24v AC/DC, 8 LEDs beacon incorporating built in buzzer is suitable for security and industrial applications, where long life and low maintenance are the pre-requisite requirement.

The lens is made of UV stable polycarbonite the base UV stable ABS plastic.

TECHNICAL FEATURES

- ◆ Continuously rated
- ◆ 3 point fix
- ◆ 360° light output around the vertical access
- ◆ 24v AC/DC 110 mA current
- ◆ IP65 rated
